

Activate your TELUS Health Virtual Pharmacy account.

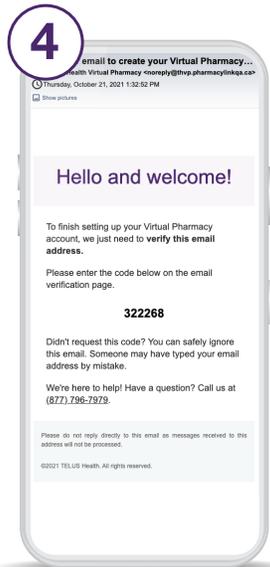

Go to teluspharmacy.com and click on the "Get Started" link.

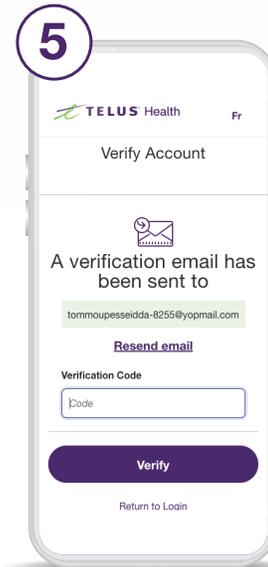

Enter your email address and create a password for your account.
Make sure to review the Terms and Conditions and Privacy Policy.

Enter your full name and date of birth.

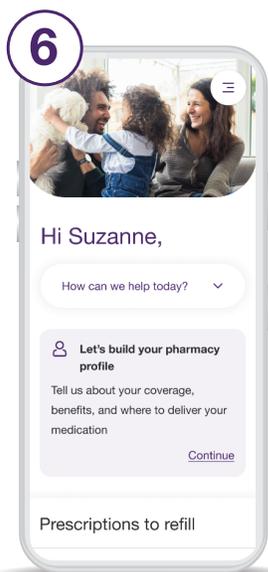

You will receive an email with a code that's needed to verify your account. Copy the code.

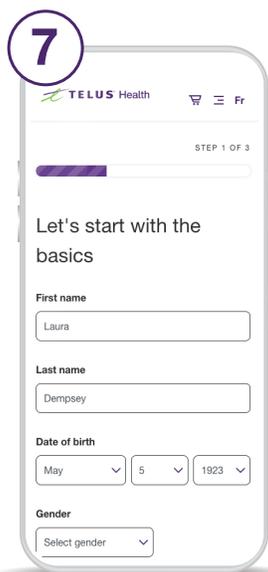

Return to the app or browser window where you began creating your account. Enter the code you received and click "Verify."
Your account is now set up.

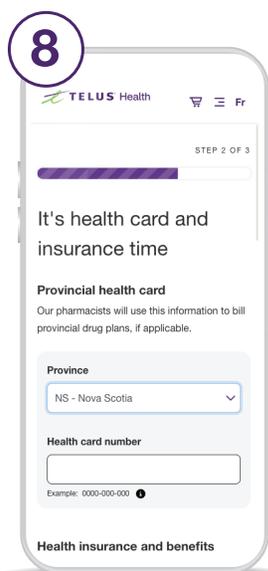

Keep reading to complete your pharmacy profile. You'll need to do this in order to transfer a prescription.

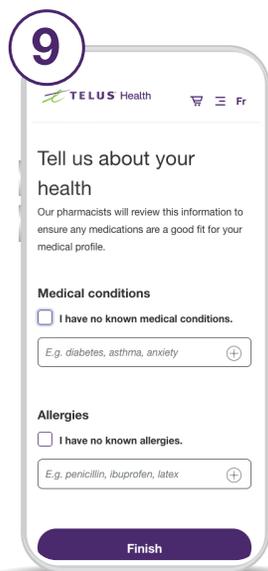

Log into your Virtual Pharmacy account. From the home page, click "continue" where it says "Let's build your pharmacy profile."

Confirm your name, date of birth, gender, and add your contact information (phone number and address).

Enter your provincial health card number and health insurance details if you have them. This information is optional and can always be added at a later date.

Tell us about any medical conditions or allergies so we can be sure your medications are a good fit. Click "Finish."

Now you can transfer, add, and order your prescriptions online.

Don't forget to download the Virtual Pharmacy app on your device and sign in using the email and password you chose.
